

**The following guidelines must be agreed upon by all users of our prayer connection:**

Submissions should be presented in the form of a “prayer request” and stated in a concise and clear manner that communicates to the prayer team what one is asking for in prayer.

It is the responsibility of the one submitting the request to obtain permission from anyone named in the request, and to insure the correctness of all content. Submissions should NOT include any of the following:

- Any names of people, without their permission.
- Any names of organizations, such as churches, businesses, etc., without their permission.
- Information that may be offensive or slanderous to other people or groups.
- The prayer connection moderator has the authority to edit all submissions to comply with these guidelines, and to exclude any info that may be questionable.
- Requests are collected and then sent out in a group once, or twice, per day as needed. If you have an emergency request that cannot wait until the next group posting, please contact the church office.
